September 2017 - June 2021
Meraki photo studio

Photographer

Along with another photographer we created the photographic studio 'Meraki'. We did photography for social events, school events and trips, graduation ceremonies, personal books.
I was also in charge of editing and delivering the material to the client.

Applied technologies

Adobe Photoshop, Adobe Lightroom

Applied knowledge

Photography edition, Photography

March 2016 - March 2018
Ministry of Agriculture of Argentina

Digital content editor

In my role as a digital content editor, my main task was to select the material shared with me by the photographer I was working with and edit it with Adobe Photoshop in order to clean and remove objects and non-aesthetic details from the scene and also improve the color and lighting of each photograph to create a perfect result.
This material was later used for national advertising campaigns.

Applied technologies

Adobe Photoshop, Adobe Lightroom

Applied knowledge

Photography edition
